Date: May 5, 2017

Notice
Project selection for Final Year

Selecting a suitable project topic can seem quite daunting at first. To assist you in selecting a topic, there is a list of proposed projects. This contains a number of proposed projects suggested by supervisors. These are only suggestions of suitable topics and there is no requirement that you must select one of these. In fact, we strongly encourage you to formulate your own ideas for a project. The suggestions are provided as a guide to give you ideas and help you understand the scale of the project you should be attempting.

You should use the proposed projects list to view the list of potential supervisors, request a particular project that they have proposed, or to suggest your own project to a supervisor of your choice.

Ideally, you should have to select your project topic by May 10, 2018. If you haven't managed to do so by this point of time then we will assign a supervisor for you who can help you develop a project idea.

Note: if you have any query or need additional information, please contact undersigned.

(Prof. (Dr.) Dilkeshwar Pandey)
