Inauguration of Center of Excellence for IoT

With the objective of accelerating innovation in the emerging technology, Center of Excellence for Internet of Things was launched on 11th August 2018.

Internet of things (IoT) is not a single technology in itself but an amalgamation of various technologies. Internet of Things encompasses sensors, microcontrollers, communication protocol, cloud technologies, IoT platforms, analytics and much more. All these technologies can be learned and applied to IoT projects based on latest industry trends. Dr. Rizwan Khan from Department of CSE is heading the Center of Excellence for IoT.

Beside Center of excellence for IoT, Students of Computer Science Department are already implementing their innovative ideas with the help of other Centers of Excellence such as -

- ⇒ Center of Excellence for Big Data
- ⇒ Center of Excellence for Advanced Robotic Control for Industrial Automation
- ⇒ Center of excellence for e-Yantra
